The HTML Code:

```
<A HREF="http://sandbox.icplanet.com/test/pvg/maps/0009.map">
  <IMG SRC="http://sandbox.icplanet.com/test/pvg/imgs/chart1.gif" border="0" ISMAP>
</A>
```

Select the blue text from the box above and copy it into your computer's clipboard. You do this by selecting the text with your mouse, going to the EDIT menu at the top of your browser window, and selecting the COPY option within the menu.

Inserting The HTML Code:

It is important that you paste blue and red code from above between the body tags of your web page.

Open your HTML Document in a text or HTML editor. Scroll through the HTML source and locate the body tag, `<body ...>`, near the top of the web page. Remember this position because you will want to insert your code below this point. Find the `</body>` in the last two lines of your web page. You will want to insert your code above this point.

Select an area between the two `<body ...>` and `</body>` tags and paste the lines from your computer's clipboard. To do this:

1. Position the cursor in your HTML document at the point where you want to insert the Search Form
2. Go to the EDIT menu at the top of your text edit window
3. Select the PASTE option within the menu.

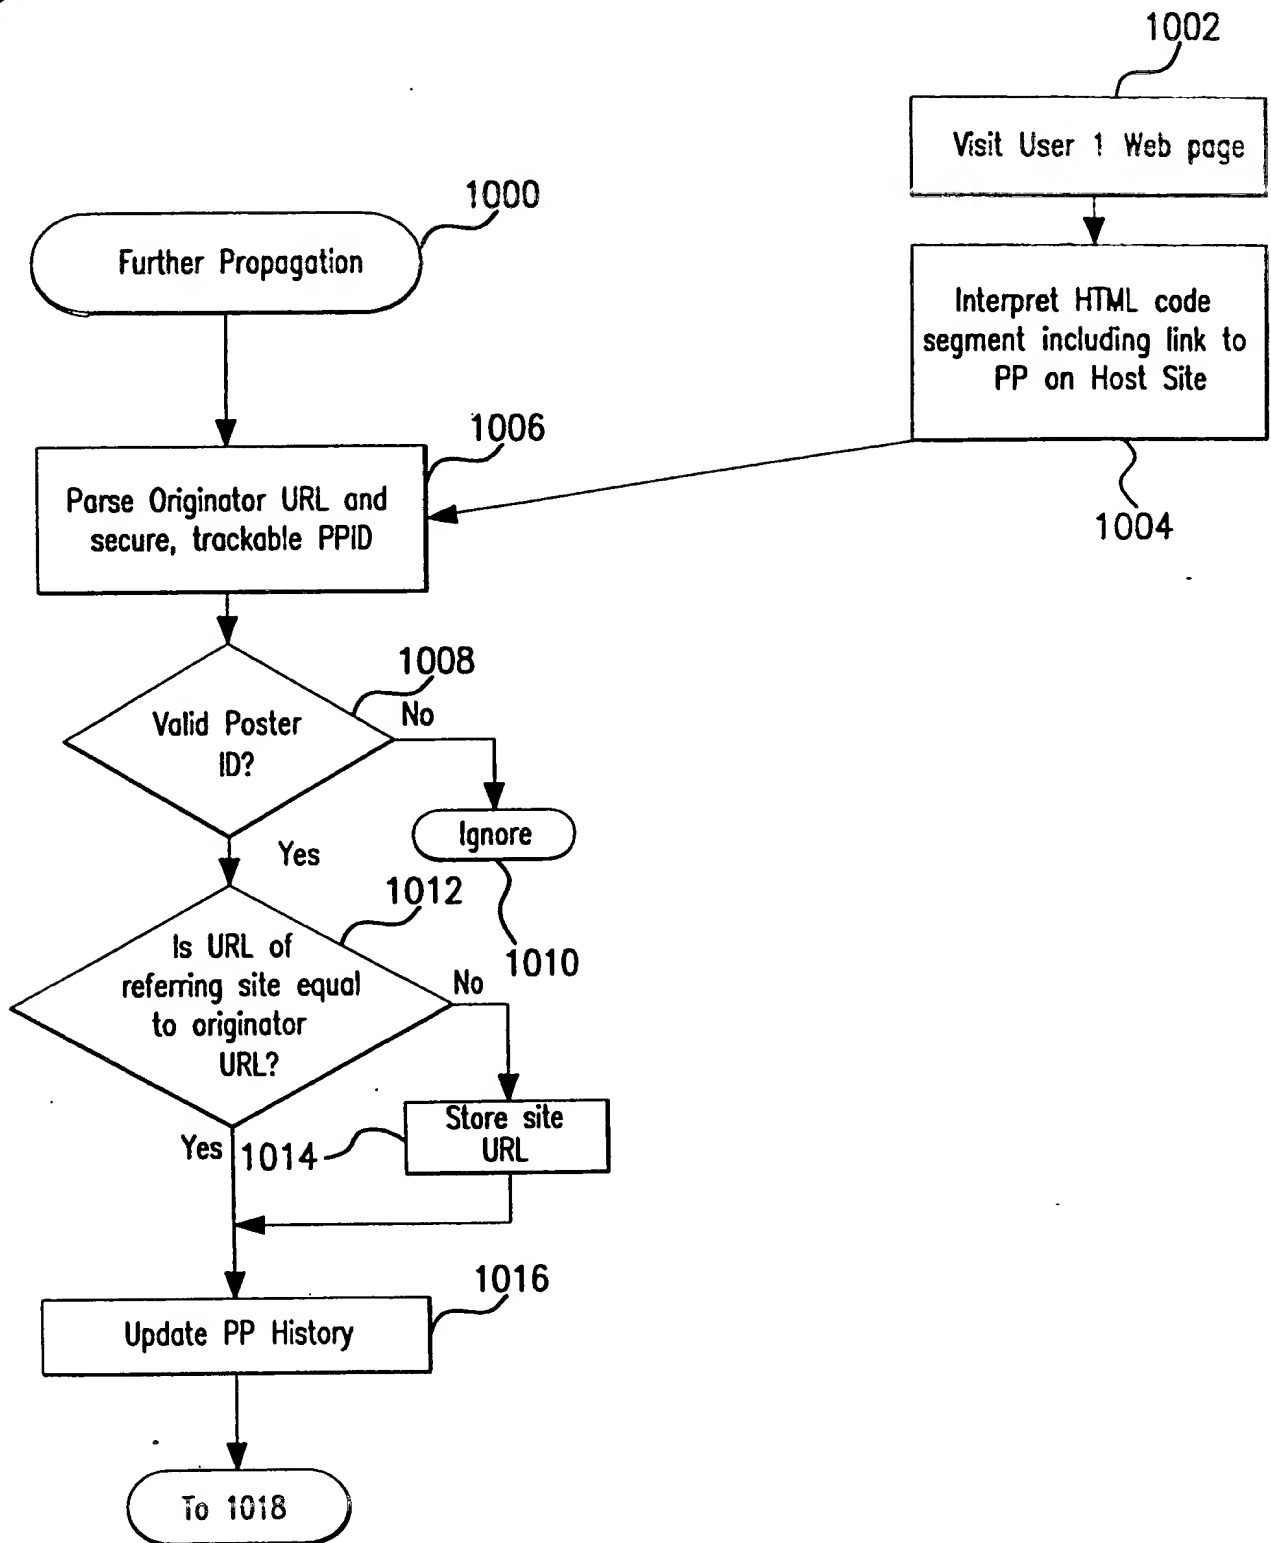

FIG.10A

Fig. 10B is a flowchart illustrating a method for configuring a remote user's device to receive a propagation poster (PP) bitmap from a host site. The method involves serving the PP bitmap to the user, viewing it, selecting a "Make Propagation Poster" area, receiving selection coordinates, converting them to x,y coordinates, evaluating them, and then either initiating a configuration session or performing other processing.

☐ Home ☒ About Google

Linking to Google

If you would like to allow Google searches from your web page, we welcome you to use the code snippet below for that purpose.

You can make any reasonable modification to the snippet, such as taking out the centering code, making the text box wider or narrower, or changing the background color (note, however, that the background for the Google logo is white, not transparent).

Here is the code:

```
<!-- Search Google -->
<center>
<FORM method=GET action="http://www.google.com/search">
<TABLE bgcolor="#FFFFFF"><tr><td>
<A HREF="http://www.google.com/">
<IMG SRC="http://www.google.com/logos/Logo_40wht.gif" border="0" ALT="Google"></A>
<INPUT TYPE=text name=q size=31 maxlength=255 value="">
<INPUT type=submit name=sa VALUE="Google Search">
</td></tr></TABLE>
</FORM>
</center>
<!-- Search Google -->
```

and here is what it looks like:

Google

If you would like to customize the search results to include your logo and reflect the look of your site, try Google's Free WebSearch service.

If you prefer to place a link to Google's homepage on your web site, we have an assortment of logo sizes available for this purpose.

Linking to Northern Light

Adding a link to Northern Light from your web page is easy. Just follow these steps.

1. Choose one of the logo or search bar options from the list below.
 - o The logos provide a link to the Northern Light home page.
 - o The search bars allow you to perform a search on Northern Light directly from your Web page. Search the entire Northern Light database, or use one of the specialized search bars to narrow your search to focus on a particular subject area.
2. Cut the corresponding HTML for your choice and paste it into your Web page.

- [Overview](#)
- [Business Allies](#)
- [Linking to NL](#)
- [Allies FAQ](#)
- [Allies Contact Form](#)

Images are linked directly from our site, so there's no need to take up any space on your server

Please Note: If you use one of the following HTML excerpts, please e-mail Customer Service so that we can notify you when we make changes to our site which affect the link or logo display.

- Go: [Active logo](#)
- Go: [Active logo with Text](#)
- Go: [Standard Search Bar](#)
- Go: [Power Search Bars](#)
- Go: [Business Search Bars](#)
- Go: [WEFA Reports Search Bar](#)
- Go: [Publication Search Bar](#)
- Email: cs@NorthernLight.com

Active Logo

This example is simply the short logo.
It is a link to Northern Light's main search page.

Example:

HTML code:

FIG. 14A

Filed: 22/1/21
Inventors: [illegible]
Attorneys: [illegible]
Title: Method, System and Computer Program for Searching and Retrieving Data from a Database

Get: [HTML for the Active Logo](#)

Active Logo with Text

This example is simply the short logo and a line of text underneath. Both are links to Northern Light's main search page. They are placed in a table to make the two elements a single discrete element that can be placed on your page.

Example:

[Northern Light Search](#)

HTML code:

Get: [HTML for the Active Logo with Text](#)

Northern Light Search Bar

Search Northern Light's entire database of Web and Special Collection Information.

Example:

Search for:

[Search](#)

[Tips](#)

HTML code:

Get: [HTML for the Standard Search Bar](#)

Power Search Pulldown Search Bar

A search bar with the option to search within one of Northern Light's Power Search subjects.

Example:

Power Search

Power Search for:

All subjects
